

IBDP | High School Mathematics Teacher

Job Description

Start Date: Summer 2021

About the Position

ISC is looking for a mathematics teacher to teach in the IB Diploma Programme as well as Grades 9-10. Previous experience and training in IBDP Mathematics is required. This is a full-time classroom position. The curriculum taught is a combination of international mathematics standards and those of the German state of Schleswig-Holstein. This teacher will may also be asked to teach interdisciplinary project-based learning courses during the afternoon program depending on course load.

About Our School

At ISC, we are an international, diverse & inclusive community. We pursue the discovery of the world, self, & others through progressive pedagogy with the goal of empowering our students to live a fully actualized life in the 21st Century. We place equal emphasis on Social-Emotional Learning and 21st Century Skill development, and we are building a pedagogical approach that provides ample room for teacher autonomy and innovation. As a five-year-old school, teachers have a unique opportunity to join our team at a point where many of the most difficult start-up challenges have been solved, yet myriad opportunities remain for their own authorship of our program.

What We Look For

At ISC, we've set out to build a school where creativity thrives in a diverse and responsive environment. We believe that planning, communication, and flexibility are vital for our success, and we value teachers who bring experience in these skills to the table. Our teachers identify with and adhere to the ISC Spirit: Teach Your Heart Out, Never Stop Learning, All Hands on Deck, and Lead with Love.

Responsibilities

- Prepare & teach mathematics lessons to students in Grades 9-12.
- Prepare & teach afternoon program lessons as needed.
- Administer and model ISC's school policies and procedures
- Regularly collect, track, and communicate student performance and growth.
- Maintain regular email correspondence with parents and students.

Benefits

- Salary ca. 50,000 euros
- Relocation: provided for all teachers outside of Germany. Amount depends on individual circumstances such as distance and dependents.
- Experience in international education.
- Ability to shape the future of a developing international school.
- Opportunity to work as part of a young, community-driven team of educators.

- Easy travel across Europe.

Qualifications

Required

- Education:
 - Either: Master's degree in Mathematics
 - OR: Bachelor's degree in Mathematics with Master's Degree in another field
 - OR: PGCE or equivalent
- Previous experience teaching either IB Mathematics: *Analysis and Approaches* or *Applications and Interpretation*.
- Category 1 (or higher) training in one of the above courses.

Desired

- Non-traditional work experience
- Fluency in German or another language.
